DESTICK +

REMOVAL OF SELF-ADHESIVE PLASTIC LABELS

PRODUCT USE

- DESTICK + has been designed to ease the removal of self-adhesive Plastic labels.

- Bonding methods have evolved, with ease label pasting on bottles : self-adhesive plastic labels have now substituted labels pasted by glue application. DESTICK+ takes precedence over modernity and adapts to this new bonding method.

DESTICK+ will allow you removing easily self-adhesive plastic labels without using a scraper, methylated spirit or acetone which are often used to take off this type of label.

OPERATING INSTRUCTIONS

PRO-VS has developed DESTICK+ which is very simple to use:

- 1- Take a 30 cm high bucket,
- 2- Place vertically the bottle inside,
- 3- Fill the bucket with DESTICK+ up to the label level,
- 4- Let the product stand-by dipping over a period of more/less 30 minutes depending on the type of label,
- 5- Take the bottle out of the bucket, remove the label and wipe,,
- 6- DESTICK+ naturally evaporates and you may immediately paste a new label,
- 7- This product may be reused several times until glue saturation.

TECHNICAL FEATURES

Visual aspect : colorless transparent liquid. Flash point : > 143.6°F

HEALTH AND SAFETY
